## Universal Life Insurance

*Life is full of uncertainties.*

Will the breadwinner in your household always be there to provide for the family? Will your family need or want a new home in the future? How much will it cost to send your children to college? How much income will you need for your retirement years?

### **Consider universal life insurance to help meet some of your financial needs.**

Universal life insurance can help replace a breadwinner's lost income and helps provide the beneficiaries with money they need to continue to live with dignity. Many other types of financial products can pay out only what you have accumulated. But life insurance pays the full amount of the death benefit purchased...at the time it is needed most. Plus, universal life insurance can also help accumulate cash for future needs.

The death benefit could be affected by loans, withdrawals, and disbursements from riders.

### **Flexible Premiums and Death Benefits**

You can change the premium or the death benefit based on your circumstance. Payments may be increased, decreased or even skipped altogether, as long as the policy value is sufficient to cover the cost of insurance and other monthly deductions.\*

### **Riders**

Various riders to enhance your policy may be available. Ask your agent for details. Riders are available at additional cost.

*\*Decreasing your premiums may affect your policy guarantees. Fluctuations in interest rates and/or policy charges may require the payment of additional premiums to keep the policy in force.*

### **Living Benefits**

#### **Terminal Illness Accelerated Death Benefit Rider**

The terminal illness benefit allows you to withdraw a portion of your death benefit if you are diagnosed with a terminal condition.

Eligibility for the Terminal Illness Accelerated Death Benefit Rider is determined by a condition resulting from injury or illness which, as determined by a physician, has reduced life expectancy to not more than 12 months, not more than 24 months in TX, GA, IL, MA, and WA, from the date of the physician's statement. The policy's benefits and values will be reduced proportionally in accordance with the benefits advanced under this rider. Benefits advanced under this rider may be subject to taxation.

#### **Nursing Care Surrender Option Rider**

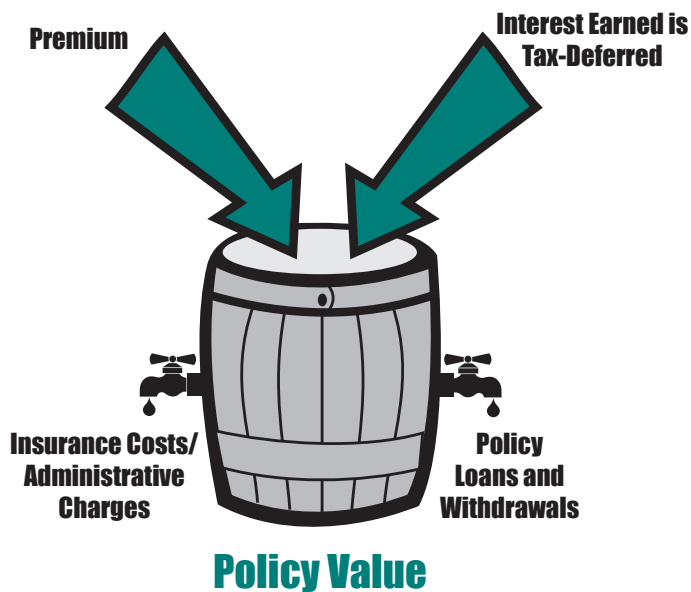

At any time, you may elect to withdraw a portion of the Policy Value free of surrender charges if you have been:

- 1) Confined in a licensed hospital or nursing facility for 30 consecutive days or
- 2) Diagnosed as having a terminal condition with a life expectancy of one (1) year or less.

#### **Annual Statement**

Each year you will receive an annual statement. Use it to plan future premium payments and stay on track to help meet your financial goals.

# How does Universal Life Insurance work?

## Flexible Death Benefit

There are two coverage options you may choose with some types of universal life insurance

### Option 1

### Option 1

Increasing Death Benefit is equal to the face amount plus the policy value.

### Option 2

### Option 2

Level Death Benefit is equal to the face amount and includes the policy value.

## Frequently asked questions & answers

### What is the benefit of Universal Life's flexibility in premium payment and death benefit?

Your Universal Life policy allows you to adjust your premium level as long as there is sufficient money in your policy to cover the cost of insurance and other monthly expenses.\* This means you can match your premium outlay to your individual budget, and adjust your premium as your financial condition changes. You can also increase or decrease your death benefits as your needs for protection change without having to buy a new policy! \*\*

### What happens if I pay extra money into my policy?

The additional premium will cause the policy value to grow and will earn a current, competitive interest rate on a tax-deferred basis.

### What if the premium I pay is less than the cost of insurance?

The amount necessary to pay for the cost of insurance will be deducted from the policy fund. This means there will be less policy value to earn interest and grow tax-deferred. Over time, failure to pay adequate premiums can cause the policy value to get smaller and smaller. If there is not enough money in the policy to pay these costs, your policy will lapse. When this happens, you will lose your valuable coverage. Be sure to refer to the "Grace Period" section of your policy for specific details.

*\* Fluctuations in interest rates and/or policy charges may require the payment of additional premiums to keep the policy in force.*

*\*\*Increases in the Specified Amount are allowed after the first policy year and are subject to underwriting approval. Minimum \$10,000 increase. Decreases are available only after the third policy year.*

**Universal Life is the centerpiece of many people's financial plans.  
Shouldn't it be a part of your plan, too?**

*In most states, an exception for life coverage is suicide while sane or insane during the first two years the coverage is in force. In the event of suicide, the Company's liability may be limited to only the return of premiums paid. In Missouri, suicide is no defense to payment of benefits unless the Company can show the insured intended suicide when he/she applied/enrolled for coverage. Other limitations and exclusions apply. Refer to the contract for complete details.*
